

Visiting Booths and Free Standing Screens for Care Homes

Providing COVID-secure face-to-face visits in care homes for residents and loved ones to spend precious time together

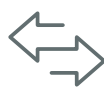

Our visiting booths and free standing screens are the ideal solution for care homes wishing to offer indoor visits with enhanced virus protection. Our products allow residents and visitors to see one another close up, spending time chatting together whilst being fully protected by a transparent screen. Dual speaker intercom systems are also available for clear communication.

Visiting Booths Complete with Dual Intercom System

Our innovative H-shaped Visiting Booths create a pleasant, relaxed space for relatives to visit loved ones in a safe and worry-free environment. Printed easy to clean side panels provide additional privacy and security. Self-assembly kits come complete with dual intercom system including induction loop aerial for amplified sound.
