

EVENT INFRASTRUCTURE. REIMAGINED.

REIMAGINE. EMPOWER. ACTIVATE.

Cube Modular, part of the Cube International group, is a specialist designer and manufacturer of modular portable buildings, delivering event infrastructure solutions of exceptional design, construction and functionality to festivals, events and venues across the globe.

The Cube team offers a full turnkey solution, with a particular focus on reducing transport, storage and logistical costs. We bring modular building concepts with sustainability, creativity and operational flexibility at their core.

Market-leading and award-winning, Cube's portable building and infrastructure solutions create powerful impact wherever they are deployed. The perfect partner for any sport, event or festival organiser.

FOLDABLE PORTABLE BUILDING SOLUTIONS

Cube Modular’s multi-functional foldable portable buildings offer the most mobile and sustainable temporary building solutions in the modular portable building industry.

Cube, together with its charity partner ecolibrium, are united in finding ways to help tackle CO2 travel emissions for live events and festivals. Our award-winning Continest cabins and Snoozy pods are folded down and stacked for transportation, which enables us to deliver all event infrastructure building requirements to your venue whilst drastically reducing travel costs and carbon emissions.

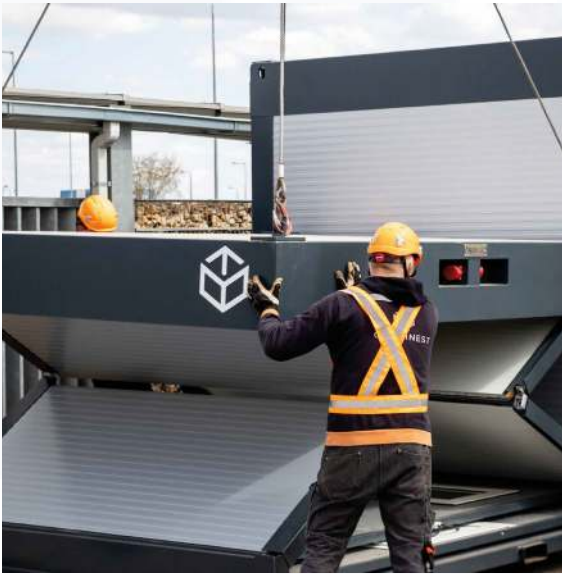

Using our foldable Continest CN10, CN20 and Snoozy point of sale pods, a single truck can transport:

- 20 Continest CN10 units (3m x 2.44m)
- 10 Continest CN20 units (6m x 2.44m)
- 40 Snoozy Point of Sale units (3m x 2.5m)

Continest units can also be jointed multiple times to create larger open plan or split areas, as well as multi-storey complexes.

IDEAL FOR USE AS:

- Merchandise & Point of Sale Units
- Bar & Catering Units
- Staff Accommodation
- Event Hotels
- Accreditation & Staff Offices
- Dressing Rooms
- Welfare Units
- Medical Centres

POINT OF SALE UNITS

We offer versatile point of sale units that are modern, practical and suitable for a host of utilities and functionalities. Fully customisable to a client's individual specification, each unit can be fitted with bespoke interior layouts and eye-catching graphic applications.

Utilising our experienced in-house team, expertly focused on designing branded temporary buildings to clients' exact requirements, we create eye-catching, multi-functional units for events and brands across the globe.

BOX OFFICES & TICKET BOOTHS

Cube's CN20 6m Box Office unit has a full-width counter featuring an upward folding panel that offers shelter to customers whilst being served. The smaller 3m CN10 and Snoozy Ticketing Booths both have two customer-facing window hatches and are ideal for ticket and programme sales or as information points.

FOOD & BEVERAGE UNITS

The CN20 point of sale unit's adaptable and functional design makes it an ideal food and beverage unit. Units can also be jointed multiple times to create larger open plan spaces for food preparation and staff areas.

KEY FEATURES

- Multi-purpose and multi-functional
- Piston system for customer comfort
- Multiple unit transport on one truck
- Jointed units for larger required spaces
- Full branding & bespoke graphics

RETAIL & MERCHANDISING UNITS

Cube's merchandise units bring a revolutionary sustainable portable retail solution to the pop-up shop and event merch world. The 6m x 2.44m or 3m x 2.44m retail units, designed with ease of operation and security in mind, include custom-made roller shutters, counter tops, lighting and back wall display units as standard.

Multiple retail units can be transported to any location on just one truck, offering event organisers and venue managers a most sustainable and eco-friendly portable retail solution of any size.

KEY FEATURES

- Walk-in, walk-up-to retail units, ideal for any event
- Multiple units transported on a single truck
- Custom made shutters for security
- Counter tops, lighting and back wall displays
- Bespoke graphics & full branding options available

As seen at EURO2020, B2022 Commonwealth Games, British Grand Prix, Lord's Cricket Ground, R&A golf championships, Sail GP, Cricket World Cup, Formula E, UEFA Nations & Europa League Finals, RLWC2021, Tottenham Hotspurs stadium, NFL London Games, Glastonbury, Boardmasters and more...

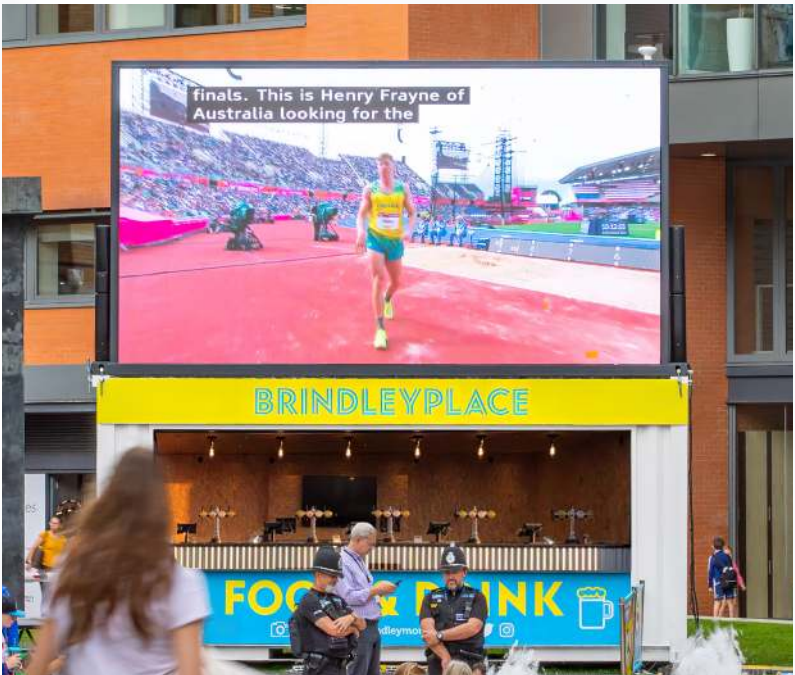

STADIUM RETAIL. REIMAGINED.

Create an impact and increase revenue with Cube X. The perfect revenue-enhancing retail solution with a 6m x 3m LED screen mounted on top of a 6m merchandise or F&B unit, broadcasting live action, advertising content or safety messages.

Where there is a requirement for multiple portable buildings, transport costs and associated carbon emissions can be drastically reduced due to Cube's foldable, stackable base units, on which the screens can be mounted on top. As seen at the RLWC2021 at Manchester Old Trafford stadium.

A revolutionary and award-winning design, ideal for:

- Public events
- Sports events
- Festivals
- Retail environments
- Product launches
- Fanzones
- Showrooms

LIVE ACTION STREAMING DURING B2022 CWG

The Cube X pop-up café provided a destination in central Birmingham's Brindley Place for local people and business owners during the B2022 Commonwealth Games and Women's Euro Finals.

The opportunity to purchase refreshments and relax in deckchairs to watch the live action on the big screen above the pop-up bar proved hugely successful, with food and beverage sales maximised, and a large increase in footfall to the central square location.

KEY FEATURES

- Cassette frame mounted screen and speakers
- Networked to allow instant remote control
- 3m screen height
- Screens fit on any of Cube's 6m brandable units
- Eco-friendly transport of multiple units

PRODUCTION & ACCREDITATION OFFICES

Portable buildings of any size can be created by joining Contineast cabins together and, where space is an issue, units can be stacked to form two-storey edifices. TV compounds, production and site offices, accreditation offices and security cabins make up some of the back-office and admin infrastructure Cube delivers to its clients.

BACKSTAGE DRESSING ROOMS

Cube's 3m and 6m insulated and heated secure cabins are a popular choice for artists' and actors' dressing rooms. Ensuite bathrooms can be added for full VIP luxury.

KEY FEATURES

- Flexible and modular configuration
- Fully insulated & fire rated panels
- Heating, lighting and power sockets included
- Multiple units transported on one truck
- Reduced transport carbon footprint
- Full branding & bespoke graphics available

ADMINISTRATION & EVENT OFFICES

LUXURY PORTABLE EVENT ACCOMMODATION

Cube's exclusive Caboose & Co bedroom suites provide the very best in pop-up event accommodation. Featuring sun terraces, comfy beds, fully functional bathrooms, including showers and flushing toilets, these stylish units bring portable hotel-style luxury to any event.

"I'D RATHER BE IN A CABOOSE"

Caboose modular hotel rooms enable landowners and rights holders to realise new profit streams by bringing a whole new level of luxury to events whilst ensuring their guests get the best possible night's sleep. Cube can supply an entire Caboose hotel infrastructure of 52 rooms, each sleeping two people in double or bunk beds.

KEY FEATURES

- Innovative & contemporary designs
- High quality, comfortable interiors
- Hassle-free maintenance
- 'Light touch' on the ground
- Quick deployment & installation
- Easily transportable to any location

SUSTAINABLE GLAMPING PODS

Snoozy glamping pods are perfect as an event-goer accommodation solution. Offering big savings on transport costs and emissions, their innovative flat-packed design allows for up to 40 units to be transported on a single truck.

Sleeping one to four people, these revolutionary portable sleeping units are capable of being installed and used virtually anywhere with their integral levelling foot system. With off-grid capability, USB power sockets and colourful LED lighting, these lockable, secure units provide event organisers with a green camping village solution.

KEY FEATURES

- Rapidly deployed accommodation solution
- Fully furnished and serviced
- Fully brandable
- Available as a twin, double or double bunk bed occupancy
- Environmentally-conscious foldable technology

POP-UP EVENT HOTELS

Our foldable container units can be quickly deployed to create multi-room staff and guest accommodation. These are ideal for large scale events of any kind. The insulated buildings can be stacked to form a two-storey hotel, with air conditioning integration available where required. Full servicing and complete furnishing packages can also be arranged.

A 20 BEDROOM HOTEL DELIVERED ON JUST TWO TRUCKS

Two trucks are all that is needed to transport a 20-bedroom pop-up hotel using Contineast's innovative foldable buildings. Folded and stacked to save space, leading to an 80% saving in carbon fuel emissions, this unique accommodation solution saves the hassle and expense for staff to travel to off-site locations after a long day's work or brings a whole new offering to guest and VIP packages.

KEY FEATURES

- Rapidly deployed
- Multi-floor layouts
- Sustainable transportation
- Twin, double or bunk bed occupancy
- Air conditioning available
- Servicing packages optional

DELPHIS*
*eco PROFESSIONAL CLEANING

HAND SANITISING WALLS

Our original, and the UK's first, 'Don't Pass It On!' hand sanitiser stations introduced by Cube in March 2020, offer an easy and effective way to encourage hand sanitation at festivals and events, supporting the safety of visitors, guests and staff.

Offered with plant-based hand sanitiser solutions from Delphis Eco, our stations can be rapidly deployed to any location and bring an ideal, sustainable hygiene solution to any venue.

Fully brandable to support marketing messages and graphic images of any description, these units are available in many different sizes and can be rented for single event rental, season long rental or purchased for year-round use.

KEY FEATURES

- Rapid deployment across the UK
- Fully customisable
- Single or multi dispenser options
- Suitable for indoor or outdoor use
- Single or seasonal rental options

TENSILEBARRIERS

CROWD MANAGEMENT SYSTEMS

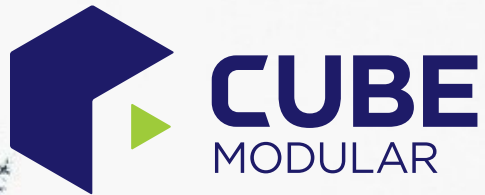

Part of Cube's event infrastructure offering, and due to popular demand, we have also incorporated high quality tensile barriers as an extension of our range. The perfect crowd management system. Easily transportable, quick to deploy, and set up in minutes, Cube's tensile barriers are the perfect solution for orderly queue management at both in- and outdoor venues and events.

Featuring a 3m retractable belt, a 4-way connectivity attachment, anti-tamper locking catches and a belt breaking system, the barriers are available for both short and long-term hire.

KEY FEATURES

- Effective queue and safety management solution
- 3m retractable belt
- 4-way connectivity attachments
- Belt breaking system
- Suitable for indoor and outdoor use
